

EMBROIDERY

Embroidery is a textile decoration technique carried out using an industrial machine that uses high quality threads for a durable finish. The cost of embroidery depends on the number of stitches, density and size, which means the more complex the design is, the higher the cost.

Production time :

Approximately 12 to 17 business days after visual approval and payment receipt. This timeframe may vary and/or increase depending on the time of year. NET30 accounts are automatically put into production after visual approval.

(Production time may vary depending on the time of the year.)
